High School e-Learning Letter to Parents

Dear Parent/Guardian,

We are excited to announce that Cleveland Public School has been approved by the school board to incorporate e-Learning Days. An e-Learning Day would allow students to work remotely from home in the case of inclement weather. Traditionally, Cleveland Public School has had to make-up excessive days off. Having e-Learning Days ensures that we maintain momentum with the curriculum, in addition to better preparation and using technology in the real world.

Important information for potential e-Learning Days:

- e-Learning Days provide a continuation of current classroom instruction at home on the day of a cancelled school day.
- All teachers will be available from 10:00 a.m.-12:00 p.m. and 1:00 p.m.-3:00 p.m. via telephone, Google Classroom, or email during the e-Learning Day so students/parents can contact the teachers with questions, if needed.
- Two additional days to complete assignments will be provided after returning to school for students without internet access. This will also provide time for questions and accommodations.
- Teachers will express expectations in class prior to a potential snow day, and lessons will be uploaded to the class Online Learning Management System (Google Classroom).
- Students will need to participate in e-Learning Days in order to be counted present for attendance purposes.
- Students will be considered absent and have the potential of receiving a score of zero if the assignments are not turned in by the expected time.

Cleveland Public School hopes these e-Learning Days will help our students reach their potential by providing them a real world experience. Lessons will be prepared by each teacher that are a continuation of the material currently being discussed in each classroom.
